

ENVIRO PLUS LINE

Flat Foam Insulation

Description

Enviro-Plus Flat Foam is a versatile and high performance EPS insulation that offers a long-term and stable R-value, as well as having excellent dimensional stability, compressive strength and water resistant properties.

These characteristics make it a perfect product for use in roof, wall and flooring applications.

Benefits

E-Plus Flat Foam insulation can be manufactured in a variety of block and panel sizes and thicknesses and minimizes the need for any additional insulation.

With stable thermal properties and a natural resistance to water and moisture, Flat Foam is a high performance insulation that contains no formaldehyde or ozone-depleting CFCs or HCFCs.

Plus, it is 100 percent recyclable if ever it needs to be removed or replaced.

Sizes

E-Plus Flat Foam insulation is custom-made and can be molded into any shape your construction project calls for.

Additionally, the shaping process can be done quickly, improving your project's lead time.

ISO Quality

E-Plus Flat Foam is produced in an ISO 9001-certified manufacturing facility using state-of-the-art laminating equipment. Its EPS core meets or exceeds ASTM C578 Standard Specification for Rigid, Celluair Polystyrene Thermal Insulation.

The product's dimensional stability and compressive strengths are subject to stringent ISO quality-control protocols.

Call your Tri State Foam representative: 1-800-277-0967 for installation instructions and more information about this Enviro Plus construction product.
