

ENVIRO PLUS LINE E-Plus Fanfold

Product Properties

Construction professionals have found that Tri State Foam's Enviro Plus Fanfold saves both time and money. This durable and rigid EPS insulation is laminated with a strong polymeric sheathing on both sides which provides a hinged connection between the boards. Our cutting edge laminating equipment and manufacturing processes assure that E-Plus Fanfold will lay flat.

ISO Quality

E-Plus Fanfold is produced in an ISO 9001-certified facility using state-of-the-art laminating equipment. Its EPS core meets or exceeds ASTM C578 Standard Specifications for Rigid, Cellulair Polystyrene Thermal Insulation. The product's stability and compressive strengths are subject to stringent ISO quality protocols.

Convenience

E-Plus Fanfold is compact and easy to store, manage and install. You can also get E-Plus Fanfold in a variety of EPS densities.

Applications

Applicable to both new and remodeling roofing and siding projects, E-Plus Fanfold secures easily to the exterior framing. It provides a level, protective shield ideal for the installation of roofing, wood, vinyl or aluminum siding.

Moreover, E-Plus Fanfold reclaims old roof systems, saving labor and material costs while extending the long-term performance of the new single-ply membrane systems.

Call your Tri State Foam rep at 1-800-277-0967 for install-ation instructions and more information about this Enviro Plus construction product.
