

TRI STATE

FOAM

Quality In All Dimensions

At Tri-State Foam, our engineers are expert in working with EPS, a rigid, yet lightweight foamed plastic with resilient closed cells that can be molded in a range of densities and sizes to meet your specifications. We make EPS products for:

- Roofing
- Walls: EIFS, SIP and Cavity
- Foundations
- Cold Storage
- O.E.M. & Custom
- GeoFoam
- Protective Packaging
- Architectural Products

Mission Statement

Tri-State Foam provides competitive advantages to each customer by helping them better define and meet their construction and packaging needs through the innovative use of EPS products.

Quality Policy

The success of Tri-State Foam is dependent upon our ability to provide complete customer satisfaction. We are committed to providing superior value and top quality products and services that we hope will exceed your expectations. In order to achieve those goals, our well-trained engineers and employees are dedicated to achieving excellence in meeting your needs.

ISO 9001 Certification

Tri-State Foam is proud to have been awarded an ISO 9001 certification. In receiving an ISO (International Organization for Standardization) certification, Tri-State Foam has been recognized by a worldwide body for our top-quality management practices. An ISO 9001 rating means that we have a tried and tested framework for turning out products which satisfy our customers' expectations.
